🌍 Languages

English
Limited Working Proficiency

💼 Professional Experience

07/2020 – 09/2020	**Software Test Engineer Intern,** *Keytorc Software Testing Services* *Arçelik Connectax - Compatibility Testing*	İstanbul, Turkey

📁 Projects

07/2020 – 08/2020	**Arçelik Connectax,** *Compatibility Testing*

The Project of Connectax in Arçelik, the cases submitted by Arçelik were arranged to be suitable for the running and the versions of web browsers and mobile devices were determined to prepare the required environment. All cases were run for the specified browser and mobile devices by connecting to virtual-real devices remotely with Saucelabs and Browserstack. In addition to compatibility problems, some functional problems were found and were opened the records of the errors by connecting with JIRA to the Arçelik team. Issues were followed up and fixed issues were rerun by our team.

09/2019 – 01/2020	**Thesis Project,** *Clothing Combination Algorithm*

An algorithm that offers combination suggestions to people according to the weather and user inputs has been developed by using python.
